Green vs. Green: The Political, Legal, and Administrative Pitfalls Facing Green Energy Production (Routledge Research in Environmental Policy and Politics) Ryan M. Yonk, Randy T. Simmons, Brian C. Steed

Renewable and carbon-neutral energy have been promoted as the future of energy production in the United States. Non-traditional energy sources show promise as alternatives to fossil fuels and may provide a sustainable source of energy in increasingly uncertain energy markets. However, these new sources of energy face their own set of political, administrative, and legal challenges. *Green vs. Green* explores how mixed land ownership and existing law and regulation present serious challenges to the development of alternative energy sources in the United States.

Analytically examining and comparing five green energy sectors; wind, solar, geothermal, biofuel and hydro power, Ryan M. Yonk, Randy T. Simmons, and Brian C. Steed argue that discussing alternative energy without understanding these pitfalls creates unrealistic expectations regarding the ability to substitute "green" energy for traditional sources. The micro-goals of protecting individual areas, species, small-scale ecosystems, and other local environmental aims often limits ability to achieve macro-goals like preventing global climate change or transitioning to large-scale green energy production. Statutes and regulations designed to protect environmental and cultural integrity from degradation directly conflict with other stated environmental ends. Although there is substantial interest in adding clean energy to the grid, it appears that localized environmental interests interfere with broader environmental policy goals and the application of existing environmental laws and regulations may push us closer to gridlock.

Green vs. Green provides a fascinating look into how existing environmental law created or will create substantial regulatory hurdles for future energy generations.

From reader reviews:

Michael Jackson:

The book Green vs. Green: The Political, Legal, and Administrative Pitfalls Facing Green Energy Production (Routledge Research in Environmental Policy and Politics) make one feel enjoy for your spare time. You need to use to make your capable considerably more increase. Book can being your best friend when you getting anxiety or having big problem using your subject. If you can make studying a book Green vs. Green: The Political, Legal, and Administrative Pitfalls Facing Green Energy Production (Routledge Research in Environmental Policy and Politics) being your habit, you can get considerably more advantages, like add your personal capable, increase your knowledge about several or all subjects. You could know everything if you like start and read a reserve Green vs. Green: The Political, Legal, and Administrative Pitfalls Facing Green Energy Production (Routledge Research in Environmental Policy and Politics). Kinds of book are several. It means that, science guide or encyclopedia or other people. So , how do you think about this e-book?

Brandon Francis:

The knowledge that you get from Green vs. Green: The Political, Legal, and Administrative Pitfalls Facing Green Energy Production (Routledge Research in Environmental Policy and Politics) is the more deep you digging the information that hide inside words the more you get interested in reading it. It does not mean that this book is hard to know but Green vs. Green: The Political, Legal, and Administrative Pitfalls Facing Green Energy Production (Routledge Research in Environmental Policy and Politics) giving you enjoyment feeling of reading. The article author conveys their point in certain way that can be understood through anyone who read the item because the author of this book is well-known enough. This specific book also makes your personal vocabulary increase well. It is therefore easy to understand then can go together with you, both in printed or e-book style are available. We recommend you for having this kind of Green vs. Green: The Political, Legal, and Administrative Pitfalls Facing Green Energy Production (Routledge Research in Environmental Policy and Politics) instantly.

Jackie Peters:

This Green vs. Green: The Political, Legal, and Administrative Pitfalls Facing Green Energy Production (Routledge Research in Environmental Policy and Politics) tend to be reliable for you who want to be described as a successful person, why. The reason why of this Green vs. Green: The Political, Legal, and Administrative Pitfalls Facing Green Energy Production (Routledge Research in Environmental Policy and Politics) can be one of the great books you must have is usually giving you more than just simple reading through food but feed anyone with information that perhaps will shock your prior knowledge. This book is usually handy, you can bring it just about everywhere and whenever your conditions at e-book and printed ones. Beside that this Green vs. Green: The Political, Legal, and Administrative Pitfalls Facing Green Energy Production (Routledge Research in Environmental Policy and Politics) giving you an enormous of experience for instance rich vocabulary, giving you trial run of critical thinking that we all know it useful in your day activity. So , let's have it and luxuriate in reading.

Joseph Mesta:

Many people spending their moment by playing outside using friends, fun activity along with family or just watching TV 24 hours a day. You can have new activity to invest your whole day by reading a book. Ugh, do you think reading a book can definitely hard because you have to bring the book everywhere? It okay you can have the e-book, bringing everywhere you want in your Smartphone. Like Green vs. Green: The Political, Legal, and Administrative Pitfalls Facing Green Energy Production (Routledge Research in Environmental Policy and Politics) which is getting the e-book version. So , why not try out this book? Let's see.
