Information Lifecycle Support: Wisdom, Knowledge, Information and Data Management (WKIDM)

Office of Government Commerce

This publication provides a comprehensive and much-needed source of information on data and information management ideal in the current climate of information losses. It examines the effective production, coordination, storage, retrieval, dissemination and management of information from internal and external sources in order to improve the performance of an organization. Information is an organisations most valuable resource (not IT) and its use overall has to be effectively managed.
