Kids Travel & Learn: New York City Annika Kennon, Vanessa Smith

Kids Travel & Learn - New York City. This Kids Travel & Learn travel activity book is developed for you and your child to have a fun and educational experience while you travel to New York City! Fun activities are mixed with facts about New York City in a way appealing to elementary school age children. Many aspects of New York City are covered, such as geography, history, government, specific sights, animal and plant life, food, sports, and transportation. Also, a wide range of school subjects are incorporated, including reading, writing, math, geography and history. The combination of facts and activities engage the children in a learning experience while they are also having fun. The book begins with the opportunity for the child to fill in information about their trip to NYC. Thereafter the topics follow a logical path, beginning with geography (Where in the world am I?), history (Who's been here before?), government & local geography (What makes up NYC?), getting around (Where in NYC am I?), food (What can I eat here?), sights (including several of the city's favorites), sports (What sports do they like here?) and a summary of the experience. As the children journey through the topics of the book, they will be engaged in: fact boxes, completing quizzes, mazes & patterns, rhyming, adding, applying logical thinking, racing through mazes, connecting dot-to-dots and coloring. It is suggested that older children work independently with the book, while younger children (who are not yet proficient readers) are likely to need some supervision from an adult, or older sibling, to get the most out of the book. The Kids Travel & Learn series is developed by two avid travelers who want to spread the joy of both travel and learning to kids - and adults - of all ages! This is the first book in the Kids Travel & Learn series. Please visit our website for more information at www.leokidstravel.com.
