St. Patrick's Cathedral in New York City is destroyed by Islamic terrorists on Easter Sunday. America is infuriated and that year a new, more militant President is elected, unseating the current President.

Over the next six years, America's world leadership is restored. ISIS is attacked and destroyed worldwide by a coalition of countries led by the United States. The social progressivism of the previous two administrations is scrapped and the country surges economically, socially and technologically.

Further enraged by the United States, and two years before the so-called "halt" in nuclear development with Iran expires, the Iranian smuggle six nuclear weapons they have secretly developed into the United States and the six biggest cities in America are leveled. The death toll amounts to 150 million people.

22 year old Arcadia Martin and the President who has survived because he was not in Washington when the bombs go off, receive a "vision" from a glowing light and are told that time will be revised and Arcadia and a force of modern weapons and experts in all fields will be transported 275 years into the past, to 1770, and will be able to rewrite history so the bombs never go off.

"The Rangers Are Coming" is the story of these 275 years. It is a sweeping, dramatic story, filled with action and amazing solutions to America's missteps. The pace never slows and surprises appear on every page.

Read the rewritten history of the United States and marvel in how each crisis is met and overcome.
