Chronic Total Occlusions: A Guide to Recanalization Ron Waksman, Shigeru Saito

"Chronic total occlusions continue to represent one of the greatest challenges to interventional cardiologists." - Cardiovascular Research Foundation -

Chronic Total Occlusions or CTOs can be found in 30% of patients with coronary artery disease.

Despite advances, CTOs remain one of the most frequently identified lesions in interventional cardiology yet least likely to be successfully treated.

The prevalence of the disorder is vexing. The threat to your patients is significant. The condition is complex. And, treatment remains a challenge.

Learn how to approach CTOs from internationally-recognized physician-educators

Turn to *Chronic Total Occlusions: A Guide to Recanalization, 2e* for expert insight into the world of CTOs and clear, practical guidance you can apply directly and immediately in your cath lab.

Offering the most comprehensive information available, this completely updated second edition provides you with:

- **Full-color images** from the diagnostic modalities that are essential in identifying CTOs
- **Data on indications and efficacy** from the most recent clinical trials
- **Practical guidance** on the selection and use of the latest wires and devices
- **Even more tips and tricks** from leading operators from the world's busiest centers
- **Clinical cases** to illustrate some of the more complex scenarios and common complications
- And more!

Chronic Total Occlusions: A Guide to Recanalization, 2e is the guide you can count on to improve the CTO success rate at your facility. Order your copy today!
