With comprehensive indexing and 22 black & white illustrations, this revised standard paperback edition explores the genealogical traditions of the Considine family for centuries BEFORE they took the surname Mac Consaidín. Once considered lost, these are the genealogical secrets of the Celtic Iron Age and Migration Period.

To tell this story, the author accessed the mass of information preserved in the Irish Language since the 7th century in Ireland's most important genealogical manuscripts. These precious documents had been hidden away in a handful of collections since the physical and cultural genocide of the Gaeil in the 17th century, and were therefore inaccessible until recently to almost all Irish, their diaspora, and their genealogists. Happily, these Irish Language manuscripts have finally been set in type and published after waiting between 350 and 850 years.

Because this book uses and translates into English this ancient but newly-available genealogical tradition as it relates to the Considine family, it is the first of its kind about the Considines in the modern era.

Physical description - This is the revised, standard paperback edition of 230 pages, 7 X 10 inch format, including 22 black & white illustrations and comprehensive indexing.
