Dimensions and Space Time Travel with Wormholes: Dimensions and Time Travel with Wormholes

Razzab Ali Shaikh

The word “dimensions” has two meanings and they are as follows: 1) A determined measurement of length, width, depth, height and weight, and 2) A body form of dimensional proportions. The first definition is clearly of the terrestrial descent; space, matter, time and science. That is the first four dimensions. The second definition is clearly another substance as it is a body of dimensional proportions; thought, celestial and human spirit. Those three of the second definition are the last three dimensions. Therefore, based on the definition we have seven related dimensions that we continually work with on a daily basis and they are as follows: 1) space, 2) matter, 3) time, 4) science, 5) human spirit, 6) heavenly body, and 7) eternal thought. These seven dimensions are the dimensions that we continually work in and relate to every single day of our lives if we are of the Eternal One. Those that are not of the Eternal, work each day in a five dimensional process. The sixth and seventh dimensions are the realm of eternity wherein those who are Eternal can enter daily. How do the dimensions relate to me? We can review briefly each of these dimensions separately or we can view them as inter-dimensional and see how they relate one to another to make our experience whole. If you continue to read all that we have written concerning the dimensions we have one page dedicated to each dimension and the information and revelation will give you great insight concerning relationships, temporal things, eternal expressions, and the progression of our glorification by experiencing each dimension daily. The seventh and sixth dimensions relate to the eternal attributes of our relationship with God. God is our control tower and we are actually the sixth and seventh dimensions. We move through the other five dimensions to develop our godly knowledge that once was without experience. Knowledge without experience is intellect. Knowledge seasoned with experience is revelation. These two dimensions are unseen to the natural person. The fifth and fourth dimensions are also unseen to the natural eye. These dimensions are the human spirit and science. We call it science because we can invent things that help us break into that fourth dimension. It is our human spirit that invents technology through science and is able to communicate and advance the fourth dimension for our use in the lower five dimensions. The third and second dimensions are related because of measurement and that is how we are affected. The measurement of time and matter within space is what gives us our experience and changes our knowledge to revelation. The dimensions are inter-related every single moment and you use them every moment of your life. Read on and you will find truths from the prophets and you will see the revelation of Jesus Christ unfolding dimensionally for your experience and understanding. We are two dimensional eternal ones traveling through a five dimensional process for the illumination of our eternal attributes.
