Star Maps J.S. Frankel

Seeing is believing, and when Carl Thornton, seventeen-year-old UFO enthusiast and high school nerd, sees a double of his homeroom teacher, he knows that something is not quite right.

Then again, he lives in Rachel, Nevada, the area known as 'UFO Central'. Formerly from Chicago, he came to live with his alcoholic uncle after the untimely death of his parents. His fondest wish is to gaze at the stars and see a UFO.

Wish granted on both counts, as he meets Grace Paxton, a high school junior and a recent transfer student. Through a series of circumstances, he discovers that Grace is a shape-shifting alien, a Theriantan, and once he's with her and her people, he learns the real reason for Area 51, the secrets it holds... and the danger that lurks beyond.
