Kindle Unlimited is a fantastic service. There are hundreds of thousands of books that can be read for the 9.99 a month fee. The fact that there are so many books in the program is great, but sometimes there are so many it makes it hard to find exactly what you are looking for. We at Peoria and Chambers have seen a need for recommendations based upon category. It can be hard to sort through all that is available to find the series that is right for you.

We have decided to create our book recommendations guides with a narrow focus. A reader that loves historical romance may not want to read a hard science fiction book or a zombie horror anthology. They may want to though and that is the beauty of our guides. They are kindle unlimited and so will cost you nothing to find recommendations in any genre.

There are a lot of authors and series not included. This is because they are not kindle unlimited and this guide is designed for those that want to maximize their subscription. You will find authors like J K Rowling because The Harry Potter series is Kindle Unlimited, but not authors like Simon R Green or Jim Butcher because the Nightside and Dresden Files series are not Kindle Unlimited. They are certainly great series, but not included in this guide. I did also include a few series that are not KU (Kindle Unlimited), but that is because the first book is free in the series.

Things do change and I cannot guarantee that all of the books listed in this guide will stay in KU, but at the date of publication 12/18/2015 all of them are. I will do periodic updates to add new series in KU and remove any I find that are no longer in the program.

This is a short guide as the focus is very narrow. This guide is for those seeking Wizard focused urban fantasy books. Books from a modern era that contain wizards. We have not included romance in this guide. That is a different and much larger book.

To follow copyright laws this publication is in full compliance with The United States Copyright Office Circular 34. We have ensured that we only include names, titles, short phrases and expressions in the books and series listed. We will include more descriptive information from any authors looking to reach out to readers and wish to send us information that they wish to add.
