Do you long for a deep, fundamental change in your understanding of life? Do you desire a greater perception of what makes life pulsate? Do you wonder why you live your life as you do and as nature and evolution had intended? "The Human Equation and the Prime Directive" is a book that belongs to every seeker. It answers the universal question, "Where did we come from and where are we going?" Hassan Rasheed reveals a way to read the patterns in the sand of life's depth of meaning. This book is an analysis of life, its direction and future on Earth in general and the role of humans in particular. It starts with the origin of life and its Prime Directive followed by the relationship between it and energy. It covers how belief systems support life's prime directive through the promotion of unity and cooperation. It ends with revelations about how all this will fair for the Earth and its inhabitants.
