Aimed mainly at the seven and under age range, it's a fun and fascinating way for guided readers as well as early readers to find out more about these amazing animals.

IP Factly books have been #1 kindle bestsellers because they present animals in a fun and entertaining way - mixing facts, photos and video clips.

IP Factly's Amazing Animals Early Reader Books have been designed to encourage and help guided reading - a vital step to independent reading and learning.

Accompanying webpages with video clips

This book provides fact after fact for information hungry children to tell family and friends, and even has accompanying webpages with video clips of many of the animals in the book.

There is even a "How much did you remember?" section at the end of the book to bolster learning and boost the fun

It makes learning fun and gives a real reason for children to want to read by themselves. Kids will love discovering animal facts to share and enjoy.

The Amazing Animals range encourages children along the path to truly independent reading and learning.

See for yourself by clicking on the front cover to look inside the book.

Reviews for other IP Factly and IC Beasties books

5.0 out of 5 stars The Amazing Octopus, April 14, 2013 By MEA

This review is from: The Amazing Octopus! Early Reader Books for Under 8's. Amazing facts and photos of some of the world's most intelligent animals. (Amazing Animals Early Reader Books) (Kindle Edition)

This is a good book to introduce nature to your child. There are interesting facts about the octopus and the pictures capture the child's mind. The words are easy for an eight year old to read without adult assistance yet this book can entertain both and share a special time together.

5.0 out of 5 stars Fun way to get your child to learn about animals! By K. Smith "Taaa!" (St. Louis, MO)

This review is from: Sharks! Shark Facts, Pictures and Links to Over 50 VIDEOS. Early Reader Shark Books for Kids (Amazing Animals Early Reader Book) (Kindle Edition)

I can't say enough about these books. All of the books by this author are amazing. They all give a general background of the animal and interesting facts about them. The best part is that they have usually 3 videos that you can click on and watch right there! These are great education tools and I think they are great for children (I read and watch them too!). If you're looking for a fun way for your child to learn about animals, these books are the way to go. You can sign up to receive emails from the author about promotional days that the books are free on amazon. But I think these books are definitely worth the price.

Scroll up and Buy this book now - your child will love going back to it again and again.
